

OVERVIEW

MMWD is offering a rebate for rainwater harvesting barrels and cisterns. This offer is available to residents, businesses and institutions with active MMWD potable water services. Participants must install and maintain the rainwater harvesting system according to manufacturer's specifications and applicable codes and regulations. Rebates are offered on a first-come, first-served basis, subject to the availability of funding.

REBATE AMOUNT

Up to \$0.50 per gallon of storage, not to exceed actual cost. Total rebates for rain barrels and cisterns may not exceed \$1,000 per site.

TO APPLY

1. Research product requirements for installation, use and maintenance.
2. Purchase and install a qualifying rain barrel or cistern.
3. Submit your application with receipts.
4. Include a completed IRS Form W-9 if you will receive more than \$600 in rebates from MMWD during the tax year. Rebates over \$600 may be considered taxable income and a 1099 will be issued. For more information on whether your rebate check will be considered taxable income, please contact a qualified tax professional.
5. Rebates may require a site visit. MMWD will contact you to schedule a site visit, if required.

ELIGIBILITY

- You must be an existing customer of MMWD with an active potable water service.
- Recycled water accounts are not eligible.
- If you are not the owner of the property where the rain barrel and/or cistern is installed, you are responsible for obtaining necessary permissions from the owner before applying for this rebate.
- If you are not the MMWD account holder at the property where the rain barrel and/or cistern is installed, you are responsible for obtaining necessary permissions from the account holder before applying for this rebate.
- Projects that require a permit and involve adjusting an existing irrigation system or installing a new one will need to comply with the district's [Landscape Plan Review requirements](http://www.marinwater.org/170/Landscape-Plan-Review-Requirements) (<http://www.marinwater.org/170/Landscape-Plan-Review-Requirements>).

RAIN BARREL AND CISTERNS MUST BE

- Purchased on/after January 1, 2020. Rebates are not retroactive.
- Newly purchased, constructed of HDPE plastic or comparable, with at least 50 gallons of storage capacity, and designed for the intended purpose of rainwater capture.

- Secured for child safety, screened or sealed for vector control (e.g. mosquito, rodent) with a fine mesh screen (1/16th inch), and designed for debris control.
- Labeled with: “NONPOTABLE RAINWATER. DO NOT DRINK”.
- Equipped with an overflow tube or pipe near the top of the barrel or cistern, directed away from buildings and/or adjacent properties.
- Equipped with a spigot near the bottom of the rain barrel or cistern, or uses a pumping system.
- Connected to rain gutter downspout, rain chain, or other effective means of capturing flow from roofs or other impervious surfaces.
- Cleaned annually, including gutters.
- Placed on a solid and level foundation, and installed and maintained in accordance with the manufacturer’s instructions.
- Situated to avoid blocking or restricting access to doors, walkways, or pathways.
- Installed, operated and maintained in accordance with requirements of Chapter 16 of the 2019 California Plumbing Code and local permitting requirements.
- Strapped to your home or building for earthquake and personal safety if the height of the barrel/cistern is two times greater than the width.
- All rainwater harvesting systems that involve tanks or barrels must be equipped with a backflow prevention device at the water main and an air gap between the rainwater harvesting system and the connection, if any, to the potable water supply. Backflow prevention devices must be installed by a licensed professional, and require annual inspection and testing. Please contact MMWD at (415) 945-1571, (415) 945-1559 or backflow@marinwater.org for more information.
- The only exception to the backflow device requirement are rain barrels and cisterns that distribute collected rainwater via a hose or bucket only, are not connected to the potable water system and are not equipped with a pump.

TERMS & CONDITIONS

- Only qualifying products purchased on/after January 1, 2020, are eligible for a rebate.
- Rebates are offered on a first-come, first-served basis, subject to availability of funds.
- Rebates cover the cost of rain barrels and cisterns only, excluding tax, delivery, and labor.
- Rebates will be paid to the name as it appears on the water bill, unless applicant is not the MMWD water account holder.
- Receipts must be legible and itemized to clearly show what has been purchased. If submitting an invoice from a contractor please ensure it includes the name and address of the contractor, itemized dollar amount of qualifying purchase(s), zero balance due, product brand, model and storage capacity. Receipts will not be returned—please make copies for your records;
- MMWD reserves the right to request proof of installation and/or to inspect the property to verify that the product(s) is (are) installed, either before or after rebate is paid, and, if necessary, to recover rebated amounts on water bill for any products not installed as required.
- Inspections may also be required at the discretion of the local mosquito and vector control agency and local permitting agencies.
- Applicants are responsible for complying with all applicable codes and regulations.
- Participant agrees to allow MMWD to use project photos for outreach and educational.
- Allow up to eight weeks for processing.
