INTRODUCTORY SECTION

220 Nellen Avenue Corte Madera CA 94925-1169 marinwater.org

December 30, 2015

To the Board of Directors of the Marin Municipal Water District:

It is our pleasure to submit this Comprehensive Annual Financial Report (CAFR) of the Marin Municipal Water District (MMWD) for the fiscal year ended June 30, 2015. Responsibility for the accuracy of this data and the completeness and fairness of the presentation, including all disclosures, rests with the district. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to fairly set forth the financial position and results of operations of the district. All disclosures necessary to enable the reader to understand the district's financial affairs have been included.

FINANCIAL STATEMENT PRESENTATION

The Comprehensive Annual Financial Report is prepared in accordance with Generally Accepted Accounting Principles (GAAP) as promulgated by the Governmental Accounting Standards Board (GASB). This report consists of management's representations concerning the finances of the district. Consequently, management assumes full responsibility for the accuracy and the completeness of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the district has established a comprehensive internal control framework that is designed both to protect the district's assets from loss, theft, or misuse, and to compile sufficient and reliable information for the preparation of the district's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the district's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The district's financial statements have been audited by Badawi & Associates, a public accounting firm licensed and qualified to perform audits of local governments within the State of California. The purpose of the independent audit was to provide reasonable assurance that the financial statements of the district for the fiscal year ended June 30, 2015, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The audit included obtaining an understanding of the entity and its environment, including internal control, sufficient to assess the risks of material

misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures.

The independent auditor concluded, based upon the audit, that there was a reasonable basis

for rendering an unqualified opinion that the district's financial statements for the fiscal year ended June 30, 2015, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The district's MD&A can be found immediately following the report of the independent auditor.

DISTRICT PROFILE

On April 25, 1912, the Marin Municipal Water District received its charter as the first municipal water district in California. Before that, water in central and southern Marin was provided by a number of small, private companies, many of them subsidiaries of real estate developers. To ensure a reliable water supply, the citizens of Marin came together to create a publicly owned and managed water system. Over the years, our customer base has expanded through the acquisition of 26 small, private water companies. Today, MMWD provides high-quality drinking water to 187,500 people in a 147-square-mile area of south and central Marin County that includes ten towns and cities as well as unincorporated areas, located immediately north of the Golden Gate Bridge and the City of San Francisco.

The district is responsible for the stewardship of more than 21,000 acres of watershed land on Mt. Tamalpais and in west Marin. Seventy-five percent of the district's water supply comes from the protected watershed on Mt. Tamalpais and hills of west Marin. The Mt. Tamalpais Watershed is a unique natural resource providing prime recreational and open space for the district's surrounding communities. Over 1.5 million visitors use the 150 miles of watershed roads and trails per year. Caring for nature, managing visitors, and involving the public in watershed stewardship are the central tasks of district rangers, natural resource specialists, and watershed maintenance staff. Watershed responsibilities include

protecting resources, managing fire risks, assisting visitors, monitoring plants and animal populations, restoring natural habitats, and maintaining access roads and trails.

As an independent special district, MMWD operates as a separate local government agency that has no reporting responsibilities to either Marin cities or Marin County. Our five-member Board of Directors governs MMWD, with each director elected to represent one of five geographic areas. Directors serve overlapping four-year terms. The board, in turn, elects one of its members to serve as board president each year. The board appoints the general manager, finance manager, board secretary, and legal counsel, each of whom serves at the pleasure of the board. The general manager is the chief executive and is responsible for hiring all division managers for each of the district functions and to administer the programs in accordance with the policies.

WATER SYSTEM & TREATMENT FACILITIES

With the annual water production currently averaging 25,800 acre-feet over the last five fiscal years, MMWD maintains over 913 miles of water pipeline, four treatment plants including one plant for recycled water, seven reservoirs with a storage capacity of 79,566 acre-feet (one acre-foot is equal to 325,851 gallons, enough water to cover one acre to a depth of one foot), 127 storage tanks, 95 pumping stations, 80 square miles of watershed, and over 61,670 service connections. Five of the seven district reservoirs (Alpine, Bon Tempe, Kent, Lagunitas, and Phoenix Lake) are located on the north slope of Mt. Tamalpais. The other two (Nicasio and Soulajule) are outside the district's service area in western Marin County.

- Alpine Lake was built in 1919 and has an arched concrete dam. The dam was raised in 1923 and 1941 to its present height and a total storage capacity of 8,891 acrefeet.
- Bon Tempe Lake has an earth fill dam and was built in 1948 with a capacity of 4,017 acre-feet.
- Kent Lake has an earth fill dam and was built in 1953. The structure was enlarged in 1982 to accommodate a total capacity of 32,895 acre-feet.
- Lake Lagunitas, the oldest facility, has an earth fill dam built in 1872. Lake Lagunitas still maintains its original capacity of 350 acre-feet.
- Phoenix Lake, has an earth fill dam, was constructed in 1905, and was significantly modified in 1968 and 1985. The last modification reduced the lake's capacity to 411 acre-feet. It now serves primarily as a scenic resource for the community and is used as a water supply source only in very dry years.
- Nicasio Reservoir has an earth fill dam and was built in 1960, with a capacity of 22,340 acre-feet.
- Soulajule Reservoir is impounded by an earth fill dam built in 1979 with a capacity of 10,572 acre-feet.

The district operates three water treatment facilities: San Geronimo Treatment Plant, Bon Tempe Treatment Plant, and Ignacio Pump Station, where the quality of potable water

purchased from the Sonoma County Water Agency (SCWA) is adjusted to match that of the water in the rest of the district's system, and one water recycling facility, Las Gallinas Valley Water Recycling Plant. San Geronimo and Bon Tempe Plants, with 35 million gallons per day (mgd) and 20 mgd maximum capacity, respectively, treat water originating from the district reservoirs. Ignacio Pump Station, with 16 mgd maximum capacity, performs chemical treatment in a polishing operation on water received from SCWA via the North Marin Intertie Pipeline. Las Gallinas Reclamation Plant, with 2 mgd current maximum capacity, performs tertiary treatment of wastewater effluent and distributes water used mainly for irrigation to more than 350 service connections through more than 25 miles of pipeline.

WATER SUPPLY

Historically, the district's water supply comes primarily from rainfall runoff captured on the

north slope of Mt. Tamalpais in the westerly slopes of the coastal range. District facilities, constructed in stages over the last 100 years, divert approximately two-thirds of the flow of Lagunitas Creek above Kent Lake and more than one-third of the flow of Nicasio Creek to developed areas of eastern Marin. The district's watershed drainage system has four creek units: Lagunitas Creek above Kent Lake, Nicasio Creek at Nicasio Dam, Ross Creek above Phoenix Lake, and Walker Creek above Soulajule Reservoir. The district and its predecessor agencies have maintained rainfall records for a period over 130 years. Average precipitation varies across the drainage basins

above the reservoirs from about 60 inches above Kent Lake to 28 inches on Walker Creek. Average annual net runoff (total runoff less losses) on the district's watershed lands is more than 75,000 acre-feet. However, year-to-year net runoff figures vary significantly from a high net runoff in 1982/83 of approximately 213,000 acre-feet to a low of approximately 3,000 acre-feet in 1976/77. Today, about 75% of the potable water used by district customers comes from the local reservoir system.

The district has considerable stewardship responsibility for the aquatic species that reside in the streams below its reservoirs. In particular, the district must release water from its reservoirs to help sustain downstream fisheries. To meet the terms included in the district's water rights, an average of about 11,000 acre-feet per year is released for that purpose.

In addition to the above described local water sources, since 1976 the district has contracted for imported delivery from Sonoma County Water Agency (SCWA). The contract with SCWA allows the district to take delivery of up to 14,300 acre-feet of water

per year. During the fiscal year 2015, the district produced 24,407 acre-feet of water for its customers, including 7,000 acre-feet of water imported from SCWA.

ECONOMIC CONDITION AND OUTLOOK

Local Economy

The district is located in Marin County with a diversified economic base, which includes high-tech, financial, service-based, entertainment, and industrial businesses. Recent economic trends for Marin County indicate that it has recovered and gained the economic strength it had before the 2008 recession. In June 2015, the county's unemployment rate of 3.4% (not seasonally adjusted) was down from 4.2% in June 2014, and lower than the rates of the state and the nation of 6.2% and 5.3%, respectively.

Factors Affecting the District's Financial Condition

The district's revenues are dependent upon the demand for water sales, which can be affected by weather, economy, population factors, more stringent drinking water regulations, or problems with the water supply. As of June 2015, the district's reservoir levels are above average at 84.32% of capacity due to continued water conservation by district customers and unusual rainfall events. In January 2014 the MMWD Board of Directors, in response to the lowest recorded rainfall in calendar year 2013, requested 25% voluntary water use reductions from customers. During December 2014, 23.22 inches or 31,345 acre-feet of rain fell on the district's Mt. Tamalpais and west Marin watersheds, bringing all seven reservoirs to full capacity for the first time since January 2013.

Despite the strong local economy and above-average water supply, the district has faced a steady decrease in water sales as the California four-year statewide drought continued through the fiscal year 2015, and the California State Water Resources Control Board adopted an expanded emergency regulation on March 17, 2015, prohibiting certain water uses for all Californians.

In addition, on April 1, 2015, California Governor Brown issued Executive Order B-29-15 calling for statewide mandatory water use reductions. On May 19, 2015, the MMWD Board of Directors received a report from the State Water Resources Control Board requesting that MMWD reduce the water use by 20% compared to 2013. MMWD's amended ordinance adopted on April 7, 2015, is consistent with the state conservation standard of a 20% reduction and remained in effect throughout the fiscal year ended June 30, 2015. The mandatory 20% water use reduction is in effect through October 2016.

Water production for the fiscal year ended June 30, 2015, was 24,407 acre-feet, 12% less than the previous fiscal year. MMWD customers have been conserving water since January 2014, and in the month of June 2015, MMWD achieved a 26% savings compared to June 2013. The decrease in the demand for water resulted in a decrease in water revenue by approximately \$7.6 million or 14% less than the previous fiscal year. The debt coverage

ratio for the fiscal year ended June 30, 2015, before utilization of the Rate Stabilization Fund is 1.07x. MMWD's board approved on November 3, 2015, the withdrawal of \$1.4 million from the Rate Stabilization Fund to increase the debt coverage ratio for the year ended June 30, 2015 to 1.28x. After the withdrawal of \$1.4 million, the Rate Stabilization Fund balance is \$5.9 million as of June 30, 2015.

As a result of the state drought restrictions, MMWD customers have had to decrease their water use in both 2014 and 2015. To address the decrease in water sales revenue as a result of water use reductions, on December 8, 2015, the Board of Directors approved a two year water rate package which incorporated rate restructuring effective January 1, 2016 and a 4% increase in all water rates, fees, and charges effective May 1, 2016. The rate restructuring changes effective January 1, 2016, are projected to increase the total revenue from fixed charges from 17% to 28% in order to reduce the district's revenue volatility. The 4% rate increase effective May 1, 2016, applies to all fixed and variable portions of the water rates, fees, and charges, and is subject to a board review in April 2016.

Long-Term Financial Planning

Consistent with Government Finance Officers Association (GFOA) recommendations, MMWD adopted a five-year strategic plan in 2014 which is the how MMWD will respond to current challenges and make the best of future opportunities for the benefit of our customers. The plan confirms our mission and goals as a public agency dedicated to high quality water service. It establishes approaches for the preservation of our precious resources for future generations utilizing the principles of sustainability and prudent fiscal practices. It also outlines the specific goals, strategies, and objectives we will pursue to move us from where we are to where we want to be, and establishes a process to measure our progress.

Vision Statement

MMWD will be a valued water service provider supporting the high quality of life in Marin County.

Mission Statement

MMWD will manage our natural resources in a sustainable manner and provide our customers with reliable, high quality water at a reasonable price.

Values

MMWD will embody the following core values in the setting and implementation of its policies and practices.

- Environmental stewardship & sustainability
- Integrity and ethics
- Open and responsive communications
- Diversity

- Healthy work environment
- Cooperation
- Fairness, dignity, and respect
- Continuous improvement through initiative, leadership, personal development, training
- Culture of excellence and innovation
- Responsible financial management

Goals

Water Supply Resiliency – We will maintain a level of reliability that supports MMWD's customers' needs, our community's quality of life, and the local economy.

Financial Stewardship - We will prudently manage the public resources entrusted to us.

Communications - We will partner with our community, customers, and staff to understand and reflect their interests and clearly articulate the programs and policies of Marin Municipal Water District.

Environmental Stewardship - We will serve the community and manage the environmental assets entrusted to us for the benefit of present and future generations.

Workforce - We will maintain a diverse, highly-qualified and trained, motivated, and productive workforce to achieve MMWD's goals.

FINANCIAL POLICIES

Budgetary Controls

The district's budget is balanced when operating revenues are equal to or greater than operating expenditures including debt service but excluding depreciation and amortization (i.e., budgeted expenditures shall not exceed budgeted revenues).

The district-wide funds management system provides budgetary controls that monitor spending within budgeted amounts. Budgetary controls function differently for operating and capital budget expenditures. For the operating budget, each department is controlled within an expenditure category such as materials, supplies, freight and utilities, repairs, and maintenance, for example. A department cannot exceed their authorized operating budget within an expenditure category or the total department budget for a fiscal year. Capital project spending is controlled based on the funding source. There may be more than one capital project assigned to a funding source.

Reallocation of the operating budget for a department among its line item expenses allows the departments to have financial flexibility within the funds management system. Budget

adjustments to a departmental budget are reallocations of funds between line item expenses and between fund centers. Approval from the affected department(s), applicable division manager, and the finance manager are required for all departmental budget adjustments. The general manager's approval is required for the reallocation of funds between the operating and capital budgets and between departments. Overall increases to the operating or capital budgets require approval from the Board of Directors.

Investments

Annually, the board adopts an investment policy that is in compliance with the California Government Code 53600 et eq. The investment of funds is delegated by the board to the district's finance manager as the treasurer who assumes full responsibility for the vestment transactions. The objectives of the investment policy are safety, liquidity, yield, and diversity. The district's investments are in compliance with the adopted investment policy. See Note 2 of the finance statements for detailed investment information.

Rate Stabilization Fund

The Installment Sale Agreement from the 2012 Revenue Bond issue allowed the creation of a Rate Stabilization Fund. The district may deposit into the fund gross revenue from one year, which can then be withdrawn and added to the gross revenues in calculating the debt ratio for a future year. The funds may also be used by the district for any other lawful purpose. A deposit of gross revenue to or a withdrawal from the Rate Stabilization Fund may be made within 180 days after the fiscal year end. Accordingly, the district revised its Policy No. 46 – Reserve Policy on November 21, 2013, to establish a Rate Stabilization Fund.

Per the bond covenants for the district's existing debt, the district is required to meet an annual debt service ratio of 1.25x annual debt service. In order to meet the required debt service ratio of 1.25x for the fiscal year ended June 30, 2015, the board approved a withdrawal of \$1.4 million from the Rate Stabilization Fund on November 3, 2015. After the withdrawal, the annual debt service ratio is 1.28x and the Rate Stabilization Fund balance is \$5.9 million.

Debt Management

The district's primary source of revenue is water sales and related service charges, followed by connection charges, rent and lease revenues, and interest. The district has the power and is mandated to establish rates and charges for water service as necessary to meet all of its expenses and obligations including debt service on existing revenue bonds, coverage requirements, and installment payments.

The outstanding revenue bonds have a first lien on net revenues. Net revenues are all enterprise revenues after deducting all maintenance and operation costs, plus connection charges after all costs of connections are deducted.

The district rating on existing debt is AA Standard & Poor's and AA+ Fitch Ratings. The AA rating was reaffirmed by Standard & Poor's on December 4, 2015.

Budget

The district adopts biennial budgets and employs long-term planning as the framework for its fiscal decisions. The district makes decisions on the efficient use of its resources. The financial plan and biennial budget includes the operating and capital programs, and sets levels of related operating, capital, and debt service expenditures that may be made during the budget period.

The budget is developed to reflect the costs necessary to provide customers with safe and reliable water service over the long term while keeping rate increases as low as possible. The budget not only allocates resources but is also used to develop rates and charges that provide adequate revenues to meet the district's needs and encourages the efficient use of water.

Decisions on allocating resources and addressing budget needs do not end when the board adopts the budget. Throughout the year, departments are responsible for implementing the budget and monitoring budget performance, responding to unforeseen or emergency circumstances, and participating in long-range financial planning.

The adopted biennial budget for fiscal year 2015/16 supports the mission, value, goals, and objectives of the district's strategic plan. The total budget for 2015/16 is \$94.8 million, with an operating budget of \$66.8 million and capital improvement program budget of \$28.1 million.

MAJOR INITIATIVES

The district evaluates a wide range of water supply and water conservation options as well as land use projections in the district's service area to develop a long range water supply strategy necessary to meet projected demands. To ensure the availability of water purchases from SCWA for the next 40 years, the district successfully obtained agreement of contract revisions for water purchases from SCWA, effective July 1, 2015 and renewal of the intertie agreement with North Marin Water District (NMWD), effective February 4, 2014, for transmission of water purchases from SCWA.

The Capital Improvement Program (CIP) includes both district capital and fire flow projects. The budget is based on the 10-year capital improvement plan developed by the Engineering and Environmental Services Division and incorporates staff requests for upgrading or replacing water system and watershed facilities and information systems software and equipment. The 2014/15 CIP spending was approximately \$24.5 million, an increase of 15% from the 2013/14 CIP expense of \$21.4 million. The district's capital projects, excluding fire flow and reimbursable projects, was funded from the 2012 Revenue Bond proceeds in the amount of \$18 million.

- Pipeline Replacement Program: Projects in this capital program provide for replacement of worn and deteriorated transmission and distribution system piping. The district maintains records of all leaks and leak repair. Staff utilizes the district's GIS (Geographic Information System) to identify pipe segments with a significant leak rate (generally ≥ 1 leak/year/1,000 ft pipe). The segments identified through this process are added to the pipeline replacement (leak) list. Pipeline replacements are prioritized primarily based on leak rate and risk related to damages to the environment or property in the event of a main break. Special consideration is given to pipelines in close proximity to salmonid bearing streams. The pipeline spending including Fire Flow Improvement Program was approximately \$6.5 million, which replaced about 7 miles.
- Treatment Plants: Capital projects at the treatment plants address three main functional areas; (1) Structure, (2) Primary treatment unit processes, and (3) Secondary unit processes. The capital work is guided by a Treatment Plant Master Plan that started in 2013 to provide a roadmap for replacement of these critical facilities. The district spent approximately \$0.6 million during FY2015.
- Tank Recoating Program: Coating and linings are an integral part of corrosion control as they provide a barrier between the structure and a corrosive environment. Corrosion control staff also work with water quality staff to ensure that interior tank coatings and linings are in compliance with State Department of Health Services drinking water requirements. Prioritization of tanks requiring recoating is based on maintaining water quality and the current requirement for interior cathodic protection. During the FY2015, County View Tank and Elda Tank were recoated, which hold 0.15 million gallons of water each.
- Storage Tanks Replacement and Improvement Program: MMWD has 138 tanks storing the daily water needs of the customers. They contain approximately 80 million gallons of water. These tanks are of vastly different ages and a variety of materials (redwood, welded steel, bolted steel, riveted steel, concrete), all requiring different maintenance and capital investment. Over the past 10 years, the district has invested approximately \$21 million replacing deficient redwood tanks. During the FY2015, two redwood tanks, Slide Gulch Tank and Oak Avenue Tank, were replaced. Each tank holds 50,000 gallons of water. In addition, the cover and the lining of Forbes Hill Reservoir Concrete Tank, which holds 4 million gallons of water, were replaced.

AWARDS AND ACKNOWLEDGEMENTS

We are pleased that the Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the district for its CAFR (Comprehensive Annual Financial Report) for the fiscal year ended June 30, 2014. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this CAFR has been accomplished through the dedicated and professional team efforts of the staff of the Finance Division along with the district's other departments, and guidance from the audit firm of Badawi and Associates, LLP. We also would like to recognize the commitment of the Board of Directors for their continued support and providing policy direction in pursuit of excellence in all realms of professional endeavors.

Respectfully submitted,

mobile well

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of the Marin Municipal Water District Corte Madera, California

Report on the Financial Statements

We have audited the accompanying financial statements of the enterprise fund and the agency fund information of Marin Municipal Water District (District) as of and for the years ended June 30, 2015 and June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Board of Directors of the Marin Municipal Water District Corte Madera, California Page Two

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the the enterprise fund and the agency fund information of the District, as of June 30, 2015 and June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, defined benefit pension plan, and schedule of funding progress for OPEB plans on pages 5 to 10 and pages 55 to 57 to be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Introductory section, Statement of Changes in Fiduciary Assets and Liabilities, and Statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The statements of changes in fiduciary assets and liabilities are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the statements of changes in fiduciary assets and liabilities are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

To the Board of Directors

of the Marin Municipal Water District Corte Madera, California Page Three

The Introductory section and Statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

below & Theodate

Badawi & Associates Certified Public Accountants Oakland, California December 30, 2015 This page intentionally left blank

As management of the Marin Municipal Water District (MMWD), we offer readers of MMWD's financial statements this narrative overview and analysis of the financial statements of MMWD for the fiscal year ended June 30, 2015. We encourage readers to consider the information presented here in conjunction with the transmittal letter in the Introductory Section and the Basic Financial Statements and Required Supplementary Information, which follows this section.

Overview of the Financial Statements

MMWD's financial section consists of the following three parts: Management's Discussion and Analysis, Basic Financial Statements and Required Supplementary Information. This management's discussion and analysis is intended to serve as an introduction to the MMWD's basic financial statements. The basic financial statements include notes which explain in detail information included in the financial statements. The Required Supplementary Information includes financial information in addition to the basic financial statements.

Proprietary Fund Financial Statements

MMWD's operations are accounted for as a single proprietary enterprise fund using the full accrual basis of accounting. In this regard, MMWD operations are accounted for in a manner similar to a private business enterprise. Within this one proprietary fund, MMWD segregates revenues and expenses for various purposes such as operations, debt service and capital improvements, but that segregation does not create separate proprietary funds.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes to the financial statements can be found beginning on page 21 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary and statistical information. Supplementary and statistical information can be found beginning on page 60 of this report.

Financial Highlights

- The District's net position at June 30, 2015 decreased by \$70 million or 22.3% from \$313.7 million to \$243.7 million mainly due to prior year adjustment to record the net pension liability of \$67.7 million, in accordance with GASB Statement No. 68.
- Capital assets, net of accumulated depreciation, at June 30, 2015 increased by \$14.4 million or 4% as compared to June 30, 2014 due to continued investment in water system infrastructure.
- Operating revenues decreased by \$8.5 million or 12.54%, and operating expenses decreased by \$0.7 million or 1.1% as compared to June 30, 2014.
- For the fiscal year ended June 30, 2015 net operating revenue decreased by \$7.8 million or 390%, and net income decreased \$8.4 million or 137% as compared to the prior fiscal year. The decreases are mainly due a decrease in water sales revenue resulting from the voluntary and mandatory water use reductions per the Governor's Emergency Orders in response to the four year state-wide drought.
- As of June 30, 2015, unrestricted and designated reserves were \$41.8 million, a decrease of \$0.8 million over the prior fiscal year. Designated reserves include the Rate Stabilization Fund which had a balance at June 30, 2015 of \$5.9 million, a decrease of \$1.4 million resulting from a withdrawal to meet the district's annual debt coverage ratio of 1.25x. Amounts placed in the Rate Stabilization Fund can be used in the calculation to meet the District's annual debt service ratio in any future year or may be used by the District for any other lawful purpose.

Financial Analysis

The Statements of Net Position in page 12-13 and the Statement of Revenues, Expenses and Changes in Net Position in page 14 provide an indication of the District's financial position and changes during the fiscal year. The District's net position reflects the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources.

| | Total net position | \$ | 243,685,640 | \$ | 313,696,520 | \$ (70,010,880) | -22.32% | \$ 307,590,361 | \$ | 6,106,159 | 1.99% | |

In Table 1 above, the District's total net position decreased by \$70 million or 22.3% largely due to the implementation of GASB Statement No. 68 the effect of which was recognizing the District's net pension liability in the amount of \$62.1 million at June 30, 2015. Accordingly, the District's unrestricted net position at June 30, 2015 decreased by \$68.1 million or 148.1% from the prior year due to an increase in long-term liabilities by \$60.5 million from the District's recognition of net pension liability of \$62.1 million and a decrease in the long-term debt by \$2.1 million.

The largest portion of the District's total net position reflects the District's investment in capital assets, net of related debt, which was \$263.9 million or 108.3% and \$266 million or 84.8% as of June 30, 2015 and 2014 respectively. The net investment in capital assets as of June 30, 2015, decreased by \$2.1 million or 0.8% compared to June 30, 2014. The decrease of \$2.1 million was comprised of an increase of \$14.4

million in capital assets, net of accumulated depreciation, offset by a decrease in the 2012 Water Revenue Bond proceeds by \$18.5 million and a decrease in the long-term debt by \$2.0 million.

The total of the deferred outflows of resources as of June 30, 2015 at \$7.2 million increased by \$5.3 million or 251.1% over the prior year. The total includes the unamortized bond refunding amounts and pension contributions made to California Public Employees' Retirement System (CalPERS) after the actuarial measurement date of June 30, 2014 which are deferred to the next fiscal year in accordance with GASB Statement No. 68. The deferred outflow of resources due to unamortized bond refunding amounts at June 30, 2015 and 2014 were \$1.9 million and \$2.1 million, respectively. The deferred pension contributions at June 30, 2015 were \$5.3 million which will be recognized in the next fiscal year.

The total deferred inflows of resources as of June 30, 2015 was \$10.2 million and is the difference between expected and actual investment returns in the CalPERS pension fund which will be amortized as a component of pension expense over the remaining four years of the five year amortization period.

8

The Statements of Revenues, Expenses and Changes in Net Position identify the various revenue and expense items which impact the changes in net position. The net position at June 30, 2015 of \$243.7 million, decreased by \$70 million from the prior year due to the current year net loss of \$2.3 million and the prior year adjustment to record the net pension liability of \$67.7 million, in accordance with GASB Statement No. 68.

Total operating revenue for the year ended June 30, 2015 of \$59.2 million (see table 2), decreased by \$8.5 million or 12.5% from the prior year, primary due a decrease in water sales revenue of \$7.6 million or 11.7%. The decrease in water sales and service charge revenue was a result of the voluntary and mandatory water use reductions per the Governor's Emergency Orders in response to the four year statewide drought.

Total operating expense for June 30, 2015 of \$65 million, decreased by \$0.7 million or 1.11% from the prior year which were a result of decreases in water purchases from SCWA of \$0.7 million, electrical power for pumping of \$0.2 million and depreciation and amortization of \$0.5 million which were offset by an increase in other operating expenses of \$0.8 million.

Net non-operating revenue/expense increased by \$0.5 million due to reduced grant and rent revenue by \$0.4 million, an increase in losses on the sale of capital assets of \$0.3 million and offset by reduced interest expense of \$0.2 million.

Capital contributions, which include revenues from connection fees, the \$75 per parcel Fire Flow Fee and capital grants decreased by \$0.1 million primarily due to a decrease in connections fees.

As of June 30, 2015, the District's net investment in capital assets totaled \$372.7 million, which is an increase of \$14.4 million or 4.02% over the prior fiscal year. The investment in capital assets includes: land, buildings, improvements, water treatments plants, filter plants, water transmission and distribution mains, water storage facilities, reservoirs, pump stations, water reclamation facilities, machinery, equipment and water rights as shown above in Table 3. Additional information on the District's capital assets is provided in Note 4 starting on page 32 of the financial statements.

As of June 30, 2015 the District had total long-term debt outstanding of \$130.4 million, net of unamortized costs, which decreased \$2.1 million from the prior year due to a reduction in principal of debt service as shown in Table 4 above. Additional information on the District's long-term debt is provided in Note 5 starting on page 33 of the financial statements.

The District is required by bond covenants to maintain principal, interest and reserve funds for each bond issue outstanding. In addition, the District is required to set rates and charges to yield revenues equal to at least 125% of the current annual debt service requirements of the outstanding revenue bonds and certificates of participation. The coverage of annual debt service for the year ended June 30, 2015 was 128% after the transfer of \$1.4 million from the Rate Stabilization Fund.

The District's bond ratings for the existing bond and certificates of participation issues are AA Standard & Poor's and AA+ Fitch Ratings.

Request for Information

This financial report is designed to provide interested parties with a general overview of the District's financial operations and condition. Should the reader have any questions regarding the information included in this report or wish to request additional information, please submit a request in writing to: Finance Manager, Marin Municipal Water District, 220 Nellen Avenue, Corte Madera, CA 94925, or telephone (415) 945-1404.

NOTES TO FINANCIAL STATEMENTS

This page intentionally left blank

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Marin Municipal Water District (the "District") was formed on April 25, 1912 as a public district under the provisions of the Municipal Water District Act of 1911 for the purpose of developing a domestic water supply for the central and southwestern areas of Marin County. The District is governed by a five-member Board of Directors who are elected for four-year alternating terms.

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

A. Reporting Entity

Generally accepted accounting principles of the United States of America require that these financial statements present the District (the primary government) and its component units. Component units generally are legally separate entities for which a primary government is financially accountable. Financial accountability ordinarily involves meeting both of the following criteria: the primary government is accountable for the potential component unit and is able to impose its will upon the potential component unit, or there is a possibility that the potential component unit may provide specific financial benefits or impose specific financial burdens on the primary government.

The MMWD Financing Corporation ("Financing Corporation") is a blended component unit that is a separate government entity that was created in 2004. It is reported as if it is part of the primary government as the District Board of Directors, although acting in a different capacity, is the controlling authority. Accounting and administrative functions are performed by the District. The purpose of the Financing Corporation is to issue debt, acquire certain property pursuant to an installment agreement with the District and defease certain outstanding debt. In May 2004 the Financing Corporation issued the 2004 Certificates of Participation. The Financing Corporation does not issue separate financial statements. See Note 5 for additional information.

In April 2010, the District formed the Marin Municipal Financing Authority (Financing Authority), a joint powers authority, with the California Municipal Financing Authority. The Authority is also reported as if it is part of the primary government as the District's Board of Directors, although acting in a different capacity, is the controlling authority. Accounting and administrative functions are performed by the District. The purpose of the Financing Authority is to issue debt to acquire certain property pursuant to an installment agreement with the District. The Financing Authority issued in May 2010 the 2010 Series A, Water Revenue Bonds and in May 2012, the 2012 Series A, Water Revenue Bonds. The Financing Authority does not issue separate financial statements. See Note 5 for additional information.

A fiduciary fund is used to account for resources held for the benefit of others outside the District. The District's fiduciary fund consists of the Wolfback Ridge Assessment District Agency Fund, for which the District is acting as an agent for the property owners and bondholders. Assets held by the District as an agent for the fiduciary fund are excluded from the District's balance sheet.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

B. Basis of Accounting and Measurement Focus

The District accounts for its activities as a proprietary fund. The financial statements are accounted for on a flow of economic resources measurement focus, using the accrual basis of accounting. Under this method all assets, deferred outflows and inflows of resources, and liabilities associated with operations are included on the balance sheet, revenues are recorded as earned and expenses are recorded at the time liabilities are incurred. Grants and similar items are recognized as revenue as soon as all eligibility requirements are met. The accounting for fiduciary funds is much like that used for proprietary funds.

The District applies all applicable GASB pronouncements, including all NCGA Statements and Interpretations currently in effect.

The intent of the District is to establish water usage rates sufficient to provide for payment of general operations and maintenance expenses as well as required debt service. When both restricted and unrestricted resources are available for use, restricted resources are generally assumed to have been used first.

The District distinguishes operating revenues and expenses from non-operating items. Operating revenues include revenues derived from water sales and water related activities; operating expenses include all expenses applicable to the furnishing of these services. Nonoperating revenue and expenses include revenue and expenses not associated with the District's normal business of supplying water. Non-operating revenues and expenses include interest income and expense, gain and loss on disposition of property and equipment, grants, and other peripheral activities. Although capital contributions, as well as special and extraordinary items when there are any, are shown separately, technically they are subcategories of non-operating revenues and expenses.

C. Cash, Cash Equivalents and Investments

Investments are stated at fair value based on quoted market prices. For purposes of the statement of cash flows, the District considers all highly liquid investments (including restricted and designated assets) with original maturities of three months or less to be cash equivalents.

D. Materials and Supplies

Materials and supplies are stated at the lower of average cost or market.

E. Capital Assets

The cost of purchased and self-constructed additions to utility plant and major replacements of property are capitalized with a capitalization threshold of \$2,000. Cost includes materials, direct labor, transportation, and such indirect items as engineering, supervision, employee fringe benefits, and interest incurred during the construction period. Repairs, maintenance, and minor replacements of

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

E. Capital Assets, Continued

property are charged to expense. Contributed assets are capitalized at the developer's cost, which approximates fair value.

Depreciation is computed on the straight-line basis over the estimated useful lives of the various classes of assets as follows:

Buildings 20-40 years
Dams and reservoirs 100 years
Pumping plant 20-40 years
Water treatment plant 30 years
Transmission and distribution 40-75 years
Vehicles 12 years
Equipment 5-40 years

F. Bond Issuance Costs/Advance Refunding of Long-Term Debt

Bond premiums and discounts, are deferred and amortized over the life of the bonds using the straight line method which does not significantly differ from the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

Accounting gains or losses resulting from advance refunding of long-term debt are deferred in accordance with GASB Statement No. 65, *Items preiviously Reported as Assets and Liabilities*, and are reported as deferred inflows of resources or deferred outflows of resources on the financial statements. Deferred amounts on bond refunding are amortized over the remaining life of the old debt (had it not been refunded) or the life of the new debt, whichever is shorter.

G. Compensated Absences

Unused vacation may be accumulated and paid to a District employee at the time of termination from District employment in accordance with the current collective bargaining agreement. At the time of retirement, an employee will be paid out, in a lump sum, seventy-five percent of their accumulated sick leave balance, not to exceed 750 hours, based upon their current salary. Compensated absences are expensed in the fiscal year incurred.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

H. Customer Advances for Construction, Contributions in Aid of Construction and Connection Fees

Customer advances for construction include deposits which are restricted to fund new subdivisions, transmission lines, tank and storage facilities, and other specific assets, along with connection fees. Connection fees are assessed on new connections to recover the past and future capital costs of the District's water system.

Upon completion of construction of specific assets, the District will record an amount equal to the actual construction costs of providing service as connection charge revenue and will record the portion relating to the recovery of past and future capital costs, other fees, and advances as contributions in aid of construction. Advances in excess of construction costs are refundable.

I. Net Position

In the statements of net position, net position are classified in the following categories:

<u>Net Investment in Capital Assets</u> – This amount consists of capital assets net of accumulated depreciation and reduced by outstanding debt that is attributed to the acquisition, construction, or improvement of the capital assets.

<u>Restricted Net Position</u> – This amount is restricted by external creditors, grantors, contributors, laws or regulations of other governments.

<u>Unrestricted Net Position</u> – This amount is all net position that do not meet the definition of "net investment in capital assets" or "restricted net position."

J. Water Sales Revenue

Generally, customers are billed as the water meters are read on a bimonthly cyclical basis. Revenues related to water delivered through the fiscal year-end, but unbilled, are accrued.

K. Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management, at the date of the financial statements, to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets, deferred inflows and outflows of resources, and liabilities as well as the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

L. Pension

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

M. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government reports a deferred loss on refunding debt and deferred employer pension contributions in this category in the statement of net position. A deferred loss on refunding results from the difference in the carrying value of refunded debt and it reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Employer pension contributions made during period between the measurement date and the report date are deferred and reflected as a reduction in the net pension liability in the subsequent fiscal year.

In addition to liabilities, the statement of net position or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District only has one item that qualifies for reporting in this category. Certain changes in the District's net pension liability are required to be deferred and reflected in pension expense over a closed amortization period. The District reported the unamortized net difference between the projected and actual earnings on pension plans as deferred inflows of resources in the statements of net position.

N. New Pronouncements

In 2015, the District adopted new accounting standards in order to conform to the following Governmental Accounting Standards Board Statements:

➤ GASB Statement No. 68, Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27 – This statement improves accounting and financial reporting by state and local governmental employers about financial support for pensions that is provided by other entities. The District restated beginning net position as part of implementation of this statement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

N. New Pronouncements, Continued

This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For defined benefit pensions, this statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service.

Note disclosure and required supplementary information requirements about pensions also are addressed. Distinctions are made regarding the particular requirements for employers based on the number of employers whose employees are provided with pensions through the pension plan and whether pension obligations and pension plan assets are shared.

The following are major impacts:

- This Statement requires the liability of employers and nonemployer contributing entities to employees for defined benefit pensions (net pension liability) to be measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service (total pension liability), less the amount of the pension plan's fiduciary net position.
- The actuarial present value of projected benefit payments is required to be attributed to
 period of employee service using the entry age actuarial cost method with each period's
 service cost determined as a level percentage of pay. The actuarial present value is
 required to be attributed for each employee individually, from the period when the
 employee first accrues pensions through the period when the employee retires.
- ➤ GASB Statement No. 69, Government Combinations and Disposals of Government Operations This statement establishes accounting and financial reporting standards related to government combinations and disposals of government operations. As used in this statement, the term government combinations include a variety of transactions referred to as mergers, acquisitions, and transfers of operations. There was no effect on net position as part of implementation of this standard.
- ➤ GASB Statement No. 71, Pension Transition for the Contributions Made Subsequent to the Measurement Date An Amendment of GASB Statement No. 68 The objective of this statement is to address an issue regarding the application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue related to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liabity. The District restated beginning net position as part of implementation of this standard.

2. CASH AND INVESTMENTS

The District pools its cash and investments for investment purposes. Certain cash and investments are segregated for specific purposes.

Under the provisions of the District's investment policy, and in accordance with California Government Code, the following investments are authorized:

| Authorized Investment Type | Maximum Maturity | Minimum Credit Ouality | Maximum Percentage of Portfolio |
|------------------------------------|---------------------|---------------------------|---------------------------------------|
| Authorized investment Type | Maturity | Quality | 1 OI HOHO |
| U.S. treasury Bonds/Notes/Bills | 365 days | N/A | No limit |
| U.S. Government Agency Obligation | 5 years | N/A | No limit |
| Time Certificates of Deposits | 180 days | AAA | 20% |
| Money Market Mutual Fund | N/A | AAAm | 10% |
| California Local Agency Investment | N/A | N/A | No limit |
| Negotiable Certificate of Deposit | 180 days | AA | 20% |
| Medium Term Corporate Notes | 5 years | A | 30% |
| Commercial Paper | 270 days | AAA | 15% |
| Bank's Acceptances | 180 days | AAA | 40% |
| Repurchase Agreements | 90 days | AAA | 10% |

Investments are stated at fair value. Included in investment income (loss) on the accompanying statement of activities and changes in net position is the net change in the fair value of investments, which consists of realized gains or losses and the unrealized appreciation (depreciation) of those investments.

Measurement of the fair value of investments is based upon quoted market prices, if available. The estimated fair value of investments that have no quoted market price is determined based on equivalent yields for such securities or on securities of comparable maturity, quality, and type as obtained from market makers.

Investments made by the District are summarized below at June 30, 2015 and 2014:

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a depositor will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counter-party (e.g., broker-dealer) to a transaction, a depositor will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provisions for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governments units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies.

The carrying amount of the District's deposits as of June 30, 2015 and 2014 was \$3,179,250 and \$5,055,304 respectively. The bank balance of deposits as of June 30, 2015 and 2014 was \$3,803,767 and \$5,942,793, of which \$500,000 was covered by federal depository insurance. The difference between the carrying amount and the bank balance is primarily due to checks outstanding at June 30, 2015 and 2014. The remaining was uninsured and not collateralized in the District's name. However, as noted above, the financial institutions which hold these deposits are required by state statute to maintain collateral pools against all public deposits they hold.

As a means to limiting its exposure to fair value losses arising from interest rates, the District's investment policy limits the District's investment portfolio to maturities of five years or less.

2. CASH AND INVESTMENTS, Continued

Under the District's investment guidelines and state statute, the District is authorized to invest in certificates of deposit, U.S. government securities, the State Local Agency Investment Fund, and other investment pools, money market funds and commercial paper with a bond rating of "A" or better. As of June 30, 2015, one of the District's investments on Medium Term Corporate Notes were in default even though the investment at time of purchase was rated in accordance with the investment policy. The investment in default has been recorded at fair market value of \$108,750, while the cost basis of the investment was \$630,812.

Interest Rate Risk – Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. As a means of limiting exposure to fair value losses arising from rising interest rates, the District's investment policy provides that final maturities of securities cannot exceed five years. Specific maturities of investments depend on liquidity needs. At June 30, 2015 and 2014, the District's pooled cash and investments had the following maturities:

| | Percentage of Investment | | | | | | | | | |
|--------------------|--------------------------|------|--|--|--|--|--|--|--|--|
| Maturity | 2015 | 2014 | | | | | | | | |
| | | | | | | | | | | |
| Less than one year | 96% | 94% | | | | | | | | |
| One to two years | 3% | 5% | | | | | | | | |
| Two to five years | 1% | 1% | | | | | | | | |

The District's investments at June 30, 2015 are summarized as follows:

| | | | Remaining Maturity (in Months) | | | | | | | | |
|------------------------------------|----|------------|--------------------------------|------------|----|-----------|-------|-----------|--|--|--|
| | | | 1 | 12 Months | | 25 to 60 | | | | | |
| Investment Type | I | Fair Value | | Or Less | | Months | Month | | | | |
| U. S. Government Agency Obligation | \$ | 7,076,980 | \$ | 4,055,140 | \$ | 2,010,980 | \$ | 1,010,860 | | | |

| Money market | | 26,853,364 | | 26,853,364 | | - | _ | - | | | |
| Total | \$ | 75,657,218 | \$ | 72,635,378 | \$ | 2,010,980 | \$ | 1,010,860 | | | |

2. CASH AND INVESTMENTS, Continued

Credit Risk – This is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. It is measured by the assignment of a rating by a nationally recognized credit rating organization. Presented below are the actual ratings, as of year-end, for each investment type:

| | | | | Exempt | Rating as of Year-End | | | | | | |
|------------------------------------|----|------------|----|--------------------|-----------------------|----|---|----|---------|----|------------|
| Investment Type |] | Fair Value | 1 | From Disclosure | AA+ | | A | In | Default | 1 | Not Rated |
| U. S. Government Agency Obligation | \$ | 7,076,980 | \$ | 7,076,980 | | | | | | | |
| Corporate Notes | | 108,750 | | | | | | | 108,750 | | |
| State investment pool (LAIF) | | 41,028,285 | | 41,028,285 | | | | | | | |
| Money market | | 589,839 | | | | | | | | | 589,839 |
| Held by bond trustee: | | | | | | | | | | | |
| Money market | | 26,853,364 | | | | | | | | | 26,853,364 |
| Total | \$ | 75,657,218 | \$ | 48,105,265 | \$ - | \$ | - | \$ | 108,750 | \$ | 27,443,203 |

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429, under the oversight of the Treasurer of the State of California. The balance is available for withdrawal on demand. The District's investments with LAIF at June 30, 2015 include a portion of the pool funds invested in Structured Notes and Asset-Backed Securities. These investments include the following:

<u>Structured Notes</u> are debt securities (other than asset-backed securities) whose cash flow characteristics (coupon rate, redemption amount, or stated maturity) depend upon one or more indices and/or that have embedded forwards or options.

<u>Asset-Backed Securities</u>, the bulk of which are mortgage-backed securities, entitle their purchasers to receive a share of the cash flows from a pool of assets such as principal and interest repayments from a pool of mortgages (such as Collateralized Mortgage Obligations) or credit card receivables.

As of June 30 2015, the District had \$41,028,285 invested in LAIF, which had invested 2.08% of the pool investment funds in Structured Notes and Asset-Backed Securities. The District reports its investment in LAIF at the fair value amount provided by LAIF, which is the same as the value of the pool share. The fair value of LAIF was calculated by applying a factor of 1.000375979 to total investments held by LAIF.

3. RESTRICTED AND DESIGNATED CASH AND INVESTMENTS

The District, because of certain bond covenants and legal requirements, is required to establish and maintain prescribed amounts of resources (consisting of cash and investments) that can be used only for their specified purposes. A portion of the District's cash and investments have been internally designated for the acquisition or the construction of specific capital projects, future self insurance claims, and for rate stabililization. These designations may be removed at the discretion of the Board.

Restricted and designated cash and investments are as follows as of June 30:

| | June 30, | | | | |
|---|----------|------------|----|------------|--|
| | | 2015 | | 2014 | |
| Restricted cash and investments: | | | | | |
| 2004 Certificates of Participation, 2010 Revenue Bonds and 2012 | | | | | |
| Revenue Bonds: | | | | | |
| Principal and interest fund | \$ | 8,186,445 | \$ | 6,897,753 | |
| Reserve fund | | 1,275,563 | | 1,275,506 | |
| Project fund | | 21,484,576 | | 39,817,798 | |
| Agency deposits | | 207,127 | | 201,944 | |
| Fire Flow Parcel Fee Program | | 1,939,529 | | 1,736,460 | |
| Deposits and advances | | 3,670,314 | | 3,595,244 | |
| Total restricted cash and investments | | 36,763,554 | | 53,524,705 | |
| Designated cash and investments: | | | | | |
| Capital projects | | 8,559,584 | | 7,487,661 | |
| Rate stabilization | | 5,900,000 | | 7,300,000 | |
| Liability claims | | 7,398,000 | | 6,798,000 | |
| Total designated cash and investments | | 21,857,584 | | 21,585,661 | |
| Total restricted & designated cash and investments | \$ | 58,621,138 | \$ | 75,110,366 | |

4. CAPITAL ASSETS

Capital assets consists of the following at June 30:

| | Balance | | 2014 | | Balance | | 2015 | Balance | |

4. CAPITAL ASSETS, Continued

Sonoma County Water Rights

In January 1996, the District revised its agreement with the Sonoma County Water Agency (the "Agency") for the purchase of water during off-peak periods. The revised contract guarantees the District a source of water during drought years. For revisions to the agreement the District has paid \$2,867,344, which has been capitalized, and is being amortized, over the life of the agreement of 18 years on a straight-line basis.

In June 2005, MMWD exercised an option within the agreement to convert 5,000 acre-feet of water from an "as available" basis to a "firm" basis of water supply from Sonoma County Water Agency for a one-time payment of \$6,326,257. This amount is being amortized on a straight-line basis over the remaining term of the agreement of nine years, plus an additional 40 years which is the renewal term at the option of the District, as management believes it is likely the agreement will be renewed.

Aqueduct Energy Efficiency Project

On February 5, 2014, the district entered into an agreement with the North Marin Water district to pay 51% of the final actual costs, currently estimated at \$4,080,000, of the Aqueduct Energy Efficiency Project which will upsize the North Marin Aqueduct from Kastania Pump Station to Redwood Landfill road. This amount is being amortized on a straight-line basis over the remaining term of the agreement of 26 years and 4 months.

5. LONG-TERM DEBT

Long-term debt consists of the following at June 30:

| | Issue | Due | Interest | Principa | | l Amount | |
|--|---------|----------|---------------|----------|-------------|----------|-------------|
| _ | Date | Serially | Rate | | 2015 | | 2014 |
| 2004 Certificates of Participation | 4/1/04 | To 2030 | 2.50% - 5.25% | \$ | 1,915,000 | \$ | 2,935,000 |
| 2010 Water Revenue Bonds | 5/1/10 | To 2040 | 2.50% - 5.00% | | 31,850,000 | | 31,850,000 |
| 2012 Water Revenue Bonds | 6/20/12 | To 2052 | 2.00% - 5.00% | | 84,680,000 | | 85,000,000 |
| Clean Renewable Energy Bonds | 9/29/08 | To 2023 | Tax credit | | 1,100,250 | | 1,222,500 |
| Aqueduct Energy Efficiency Project | 2/5/14 | To 2032 | N/A | | 3,355,000 | | 3,600,000 |
| Total | | | | | 122,900,250 | | 124,607,500 |
| Original issue premium/discount, net | | | | | 9,289,903 | | 9,611,556 |
| Less Long-term debt, due within one year | | | | | 1,767,250 | | 1,707,250 |
| Long-term debt - Due in more than on | e year | | | \$ | 130,422,903 | \$ | 132,511,806 |

5. LONG-TERM DEBT, Continued

On April 30, 2004, the District issued \$40,165,000 of 2004 Certificates of Participation (COPs) for the purpose of refunding the \$11,925,000 of outstanding 1994 Revenue Bonds, prepayment of the Federal Drought Loan and the State Reclamation Loan in the amounts of \$2,592,146 and \$2,528,101, respectively, financing capital improvements to the District's water system, funding a deposit to a reserve fund, and paying the costs of the financing. Interest payments are payable semi-annually on January 1 and July 1. The bonds mature through July 1, 2029, and bear interest at the rate of 5%. The bonds were partially refunded by the 2012 Series A Water Revenue Bonds. The COPs are limited obligations of the District payable from, and secured by, a pledge of the Net Revenues of Water systems. The refunding took advantage of lower interest rates which were available and resulted in reductions in debt service requirements over the life of the new debt. Proceeds of \$11,869,114 from the COPs were transferred to a trustee and placed in an irrevocable trust to redeem the 1994 Revenue Bonds. These funds were invested in U.S. government securities to provide for the redemption price and interest through the call date. Accordingly, the 1994 Revenue Bonds were removed from the balance sheet as of June 30, 2004. Proceeds of approximately \$25 million from the COPS were transferred to a trustee to fund capital improvements to the District's water system over the next three years. These funds were fully invested in a guaranteed investment contract. As of June 30, 2008 there were no funds remaining. The advanced refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$1,208,048 which has been deferred and amortized in accordance with GASB Statement No. 23. A portion of the unamortized deferred amount of refunding of \$293,181 was written off and included in interest expense for the year ended June 30, 2012 as the bonds were partially refunded by the 2012 Series A Water Revenue Bonds. Total amortization related to the above bond refunding was \$25,995 and \$25,995 for fiscal 2015 and 2014, which was included in interest expense.

On September 29, 2008, the District issued Clean Renewable Energy Bonds (CREBs) for the installation of solar panels on the District's administration building and at its corporate yard. The CREBs were authorized by the Internal Revenue Service and are structured so that bondholders receive a federal income tax credit in lieu of interest. The amount of the tax credit is set by the U.S. Treasury department on a daily basis. The total principal amount of the CREBs issued for both projects was \$1,956,000. The net proceeds of the two issues were \$1,845,030, less original issue discount of \$56,630 and issuance costs of \$54,340. The debt service is paid annually over 15 years in the amount of \$122,250, principal only. The issues mature on September 30, 2023. The installment payments are payable from the net revenue of the District.

On May 26, 2010, the joint power authority, Marin Municipal Water District Financing Authority issued the 2010 Series A Water Revenues Bonds in the amount of \$32,235,000 to fund the acquisition and construction of additions, betterments, extensions and improvements to the District's municipal water system including, but not limited to: watershed improvement projects, water treatment and water quality projects, water distribution piping and related facility projects, water storage projects and computer and technology system projects. Interest payments are payable semi-annually on January 1 and July 1. The bonds mature through July 1, 2040, and bear interest at the rate of 5%. The Bonds are special limited obligations of the Financing Authority payable from and secured by a pledge of the Net Revenues of Water Systems.

5. LONG-TERM DEBT, Continued

On June 20, 2012, the joint power authority, Marin Municipal Water District Financing Authority issued the 2012 Series A Water Revenues Bonds in the amount of \$85,000,000 to refund the District's outstanding 2002 Water Revenue Bonds and a portion of the 2004 Certificant of Participation. Interest payments are payable semi-annually on January 1 and July 1. The bonds mature through July 1, 2052, and bear interest at the rate of 5%. The bonds are special limited obligations of the Financing Authority payable solely from and secured by a pledge of amounts held in certain funds and accounts under the indenture and the revenues derived from the 2012 installment payments made by the District under the 2012 installment sale agreement. The net proceeds of \$38,126,123 from these refunding bonds were transferred to a trustee and placed in an irrevocable trust to redeem 2002 Water Revenue Bonds and a portion of the 2004 Certificant of Participation. These funds were invested in U.S. government securities to provide for the redemption price and interest through the call date. Accordingly, the 2002 Revenue Bonds and a portion of the 2004 Certificant of Participation were removed from the balance sheet as of June 30, 2013. The advanced refunding resulted in a difference of \$2,303,279 between the reacquisition price and the net carrying amount of the old debt, that has been deferred and amortized in accordance with GASB Statement No. 23.

On February 5, 2014, the district entered into an agreement with the North Marin Water district to pay 51% of the final actual costs, currently estimated at \$4,080,000, of the Aqueduct Energy Efficiency Project which will upsize the North Marin Aqueduct from Kastania Pump Station to Redwood Landfill road. Marin Municipal Water District takes delivery of Agency water through a connection to an Aqueduct in Northern Novato. Part of the Aqueduct is being replaced under the Marin-Sonoma Narrows High Occupancy Vehicle Widening project, a joint project between Caltrans and the Federal Highway Administration. The relocation and replacement of the Aqueduct is called the Aqueduct Energy Efficiency Project, which includes relocation and replacement of 24,000-feet of Aqueduct with a larger diameter pipe. The final costs of the Aqueduct Energy Efficiency Project are to be determined once the Aqueduct Energy Efficiency Project is completed, which is expected to occur in 2016 or 2017. Marin Municipal Water District shall make payments in the amount of \$245,000 to the North Marin Water District, each July 1, from 2014 through 2032 as fair compensation for the AEEP capital cost.

The District is subject to certain debt covenants, the most restrictive of which requires the setting of rates and charges to yield net revenue equal to at least 125 percent of the current annual debt service requirement of the revenue bonds and other parity debt, as well as the establishment of certain principal, interest and reserve funds. The 2004 COPS, 2010 Revenues Bonds and 2012 Revenues Bonds are collateralized by a pledge of the District's net revenues of Water Systems, as defined in the Master Indenture. The total principal and interest remaining on the bonds is \$231,498,414, payable through June, 2053. For FYE 14/15 principal and interest paid, and total net revenues of Water Systems received, were \$6,755,140 and \$8,613,637 respectively. For FYE 13/14 principal and interest paid, and total net revenues of Water Systems received, were \$7,422,090 and \$11,283,753 respectively.

5. LONG-TERM DEBT, Continued

Changes in long-term obligations and debt for the fiscal years ended June 30, 2015, and 2014 are as follows:

| | | Balance | 2014 | | Balance 2015 | | 15 Ba | | Balance Due Withi | | Due Within | | | | | |

Non-District Obligation:

During October 1996, the District issued the following debt, for which the District is acting as an agent for the property owners and bondholders; accordingly, unpaid principal balances on June 30, 2015 and 2014 are not included in the District's financial statements. During the fiscal years ended June 30, 2015 and 2014, bonds in the amounts of \$20,000 and \$25,000 respectively were repaid:

| | Issue | Due | Interest | Authorized | | Outstanding | | Outstanding | |
|--|---------|----------|---------------|------------|---------|---------------|---------|---------------|---------|
| | Date | Serially | Rates | And Issued | | June 30, 2015 | | June 30, 2014 | |

6. EMPLOYEE RETIREMENT PLANS

A. Pension Plans

I. General Information about the Pension Plans

Plan Descriptions – All qualified permanent and probationary employees are eligible to participate in the District's Miscellaneous Plans, agent multiple-employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS), which acts as a common investment and administrative agent for its participating member employers. Benefit provisions under the Plans are established by State statute and Local Government resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

6. EMPLOYEE RETIREMENT PLANS, Continued

I. General Information about the Pension Plans, Continued

Benefits Provided – CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Plans' provisions and benefits in effect at June 30, 2015, are summarized as follows:

| | Miscellaneous |
|---|--------------------|
| Benefit vesting schedule | 5 years of service |
| Benefit payments | monthly for life |
| Earliest retirement age | 50 |
| Benefit factor for each year of service | |
| as a % of annual salary | 2.7% at age 55 |
| Required employee contribution rates | 7.5% |
| Required employer contribution rates | 23.324% |

On January 1, 2013, the Public Employee Pension Reform Act (PEPRA) went into effect. This State law applies to employees hired after January 1, 2013 who are new to PERS. These employees are termed PEPRA members and employees that were enrolled in PERS (without significant separation) prior to January 1, 2013 are now referred to as classic members. PEPRA miscellaneous members will be enrolled in a 2% at 62 plan. PEPRA members will be required to pay half the normal cost of their plans.

Employees Covered - At June 30, 2015, the following employees were covered by the benefit terms for each Plan:

| | Miscellaneous |
|--|---------------|
| Inactive employees or beneficiaries currently receiving benefits | 289 |
| Inactive employees entitled to but not yet receiving benefits | 97 |
| Active employees | 227 |
| Total | 613 |

6. EMPLOYEE RETIREMENT PLANS, Continued

I. General Information about the Pension Plans, Continued

Contributions – Section 20814(C) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for both Plans are determined annually on an actuarial basis as of June 30th by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. For the measurement period ended June 30, 2014 (the measurement date), the average active employee contribution rate is 7.972 percent of annual pay for the Miscellaneous Plan, and employer contribution rate is 20.975 percent of annual payroll for the Miscellaneous Plan.

II. Net Pension Liability

The District's net pension liability for each Plan is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability of each of the Plans is measured as of June 30, 2014, using an annual actuarial valuation as of June 30, 2013 rolled forward to June 30, 2014 using standard update procedures. A summary of principal assumptions and methods used to determine the net pension liability is shown below.

Actuarial Assumptions – The total pension liabilities in the June 30, 2013 actuarial valuations were determined using the following actuarial assumptions:

| | Miscellaneous | | | | | |
|----------------------------------|--|--|--|--|--|--|
| Valuation Date | June 30, 2013 | | | | | |
| Measurement Date | June 30, 2014 | | | | | |
| Actuarial Cost Method | Entry-Age Normal Cost Method | | | | | |
| Actuarial Assumptions: | | | | | | |
| Discount Rate | 7.50% | | | | | |
| Inflation | 2.75% | | | | | |
| Salary Increases | Varies by Entry Age and Service | | | | | |
| Investment Rate of Return (1) | 7.50% | | | | | |
| Mortality (2) | Derived using CalPERS' Membership Data for all Funds | | | | | |
| Post Retirement Benefit Increase | Protection Allowance Floor on Purchasing Power applies, 2.75% thereafter | | | | | |

- (1) Net of pension plan investment and administrative expenses, including inflation.
- (2) The mortality table used was developed based on CalPERS' specific data. The table includes
- 20 years of mortality improvements using Society of Actuaries Scale BB.

6. EMPLOYEE RETIREMENT PLANS, Continued

II. Net Pension Liability, Continued

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2013 valuation were based on the results of a January 2014 actuarial experience study for the period 1997 to 2011. Further details of the Experience Study can be found on the CalPERS website.

Discount Rate – The discount rate used to measure the total pension liability was 7.50% for each Plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.50 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.50 percent will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

According to Paragraph 30 of Statement 68, the long-term discount rate should be determined without reduction for pension plan administrative expense. The 7.50 percent investment return assumption used in this accounting valuation is net of administrative expenses. Administrative expenses are assumed to be 15 basis points. An investment return excluding administrative expenses would have been 7.65 percent. Using this lower discount rate has resulted in a slightly higher Total Pension Liability and Net Pension Liability. CalPERS checked the materiality threshold for the difference in calculation and did not find it to be a material difference.

CalPERS is scheduled to review all actuarial assumptions as part of its regular Asset Liability Management (ALM) review cycle that is scheduled to be completed in February 2018. Any changes to the discount rate will require Board action and proper stakeholder outreach. For these reasons, CalPERS expects to continue using a discount rate net of administrative expenses for GASB 67 and 68 calculations through at least the 2017-18 fiscal year. CalPERS will continue to check the materiality of the difference in calculation until such time as it has changed its methodology.

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

6. EMPLOYEE RETIREMENT PLANS, Continued

II. Net Pension Liability, Continued

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

| Asset Class | New Strategic Allocation | Real Return Years 1 - 10(a) | Real Return Years 11+(b) |
|-------------------------------|--------------------------------|--------------------------------|-----------------------------|
| Global Equity | 47.00% | 5.25% | 5.71% |
| Global Fixed Income | 19.00% | 0.99% | 2.43% |
| Inflation Sensitive | 6.00% | 0.45% | 3.36% |
| Private Equity | 12.00% | 6.83% | 6.95% |
| Real Estate | 11.00% | 4.50% | 5.13% |
| Infrastructure and Forestland | 3.00% | 4.50% | 5.09% |
| Liquidity | 2.00% | -0.55% | -1.05% |
| Total | 100% | • | |

⁽a) An expected inflation of 2.5% used for this period.

⁽b) An expected inflation of 3.0% used for this period.

| Changes in the year: | | | | _ | | | | |
| Service cost | | 3,643,451 | | - | | 3,643,451 | | |
| Interest on the total pension liability | | 14,880,788 | | - | | 14,880,788 | | |
| Differences between actual and expected | | | | | | | | |
| experience | | - | | - | | - | | |
| Changes in assumptions | | - | | - | | - | | |
| Changes in benefit terms | | - | | - | | - | | |
| Contribution - employer | | - | | 4,633,745 | | (4,633,745) | | |
| Contribution - employee | | - | | 1,909,494 | | (1,909,494) | | |
| Net investment income | | - | | 22,211,386 | | (22,211,386) | | |
| Administrative expenses | | - | | - | | - | | |
| Benefit payments, including refunds of | | | | | | | | |
| employee contributions | | (10,194,990) | | (10,194,990) | | - | | |
| Net changes | | 8,329,249 | | 18,559,635 | | (10,230,386) | | |
| Balance at June 30, 2015 | \$ | 210,015,518 | \$ | 147,876,441 | \$ | 62,139,077 | | |

(1) – The fiduciary net position includes receivables for employee service buyback, deficiency reserve, and fiduciary self-insurance.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following presents the net pension liability of the District for each Plan, calculated using the discount rate for each Plan, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

| | Miscellaneous | | | | | |
|---|---------------|---------------------|--|--|--|--|
| 1% Decrease Net Pension Liability | \$ | 6.50% 87,637,727 | | | | |
| Current Discount Rate Net Pension Liability | \$ | 7.5% 62,139,077 | | | | |
| 1% Increase | ψ | 8.5% | | | | |
| Net Pension Liability | \$ | 40,725,228 | | | | |

6. EMPLOYEE RETIREMENT PLANS, Continued

III. Changes in the Net Pension Liability, Continued

Pension Plan Fiduciary Net Position – Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

IV. Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

For the year ended June 30, 2015, the District recognized pension expense of \$4,560,144. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | red Outflows of Resources | Deferred Inflows of Resources | | | |
|---|----------------------------------|-------------------------------|------------|--|--|
| Pension contributions subsequent to measurement date Net differences between projected and actual | \$ 5,315,722 | | | | |
| earnings on plan investments | | \$ | 10,156,785 | | |
| Total | \$ 5,315,722 | \$ | 10,156,785 | | |

\$5,315,722 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

| | Deferred | | |
|--------------------|----------|--------------------|--|
| Measurement Period | Outfl | Outflows/(Inflows) | |
| Ending June 30: | of | of Resources | |
| 2016 | \$ | 2,539,196 | |
| 2017 | | 2,539,196 | |
| 2018 | | 2,539,196 | |
| 2019 | | 2,539,196 | |

V. Payable to Pension Plans

As of June 30, 2015, the District reported a payable of \$310,718 for the outstanding amount of contributions to the pension plans required for the year ended June 30, 2015.

7. DEFERRED COMPENSATION PLAN

The District offers its employees a 457 deferred compensation plan which assets are invested by independent third party custodians. The assets are not subject to claims by creditors of the District and are not reflected in the accompanying financial statements.

8. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

In FYE 2009, the District implemented Governmental Accounting Standards Board Statements No. 45, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions by State and Local Governmental Employers (GASB 45).

A. Plan Description

The District provides retiree medical insurance and dental benefits to eligible retirees and a dependent in accordance with various labor agreements. Medical insurance benefits are provided under the CalPERS health plan. Dental benefits are provided by a private insurance carrier.

B. Eligibility

The District provides medical and dental benefits to employees if they retire from the District on or after age 50 (unless disabled), and are eligible for a CalPERS pension. The medical benefits cover the employee and their one dependent from retirement date for life. The employee and their one dependent receive dental coverage from retirement until the employee reaches age 65. Employees are not obligated to contribute unless plan costs exceed the District's maximum contribution.

For health insurance, the District pays the cost for the health insurance premium up to the cost for the retiree plus one dependent. Medicare Supplemental insurance coverage is used when a plan participant reaches age 65.

For dental coverage, the District pays the entire cost of the dental insurance until the retiree reaches age 65. The retiree at age 65 may elect to continue coverage for themselves plus a dependent at their own cost.

8. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS, Continued

C. Funding Policy

The contribution requirement of plan members and the District are established and may be amended by agreement between the District and its collective bargaining units. The District must agree to make a defined monthly payment towards the cost of each retiree's medical and dental coverage. The required contribution is based on an amount established by the District annually. Effective January 1, 2015, the District's contribution rate for medical coverage was up to \$775.08 and \$1,550.16 per month for retiree and retiree plus one dependent, respectively. For dental coverage the annual contribution amount is up to \$1,500 and \$3,000 for retiree and retiree plus one dependent, respectively. Actual contributions by the District for each retiree for medical and dental benefits vary depending on medical plan coverage and actual dental costs.

The District's contribution requirements for the plan provides for annual contributions authorized by the District's board of directors. The required contribution rate is based on the annual required contribution (ARC), an amount that is actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the District's plan over a period not to exceed thirty years. The ARC rate is 18% and 17.0% in FY 2015 and FY 2014, respectively.

D. Annual OPEB Cost and Net OPEB Obligation

For the years ended June 30, 2015 and 2014, the District's annual OPEB costs (expenses) of \$3,817,000 and \$4,153,000, was equal to the ARC plus the accrued interest on prior OPEB liabilities. Actual contributions were based on the actuarial projection for the year. The District's net OPEB obligations as of and for the fiscal year June 30, 2015 and 2014 were as follows:

| Net OPEB obligation as of June 30, 2013 | \$ | - |
|---|----|-------------|
| Annual required contribution | | 4,153,000 |
| Annual OPEB costs | | 4,153,000 |
| Contributions made | | (4,153,000) |
| Increase in net OPEB obligation | | - |
| Net OPEB obligation as of June 30, 2014 | \$ | - |
| Annual required contribution | • | 3,817,000 |
| Annual OPEB costs | | 3,817,000 |
| Contributions made | | (3,817,000) |
| Increase in net OPEB obligation | | _ |
| Net OPEB obligation as of June 30, 2015 | \$ | - |

8. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS, Continued

D. Annual OPEB Cost and Net OPEB Obligation, Continued

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for the current fiscal year and each of the two preceding years are as follows:

| | Percentage of | | | |
|-------------|---------------|------------------|--------------------|--|
| | Annual | Annual OPEB Cost | Net OPEB | |
| Fiscal Year | OPEB Cost | Contributed | Obligation/(Asset) | |
| 6/30/2013 | 4,051,000 | 100.00% | - | |
| 6/30/2014 | 4,153,000 | 100.00% | - | |
| 6/30/2015 | 3,817,000 | 100.00% | - | |

E. Funded Status and Funding Progress

As of June 30, 2012, the most recent actuarial valuation date, the plan was not fully funded. The actuarial accrued liability for benefits was \$42,419,000, and the actuarial value of assets was \$9,028,000, resulting in an unfunded actuarial accrued liability (UAAL) of \$33,391,000. The covered payroll (annual payroll of active employees covered by the plan) was \$21,231,000, and the ratio of the UAAL to the covered payroll was 157%.

For the years ended June 30, 2015 and 2014, \$1,855,000 and \$2,184,000 respectively were contributed to an irrevocable trust established with CalPERS to temporarily hold funds in anticipation of unfunded future retiree benefits. The contribution amounts in FY13/14 and FY 14/15 were not reflected in the actuarial calculation as of June 30, 2012.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

8. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS, Continued

F. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the District and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the District and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2012, actuarial valuation, the entry age level percentage of payroll method was used. The actuarial assumptions included a 7.5% investment rate of return, (net of administrative expenses), which is based upon the expected rate of return on the CalPERS California Employers' Retiree Benefit Trust Fund (CERBT); an annual healthcare cost trend rate of 8.9% initially, graded down by decrements to an ultimate rate of 5% percent after 7 years; and a 4% dental cost trend rate. These rates include an inflation assumption of 2.75% and projected payroll increases of 3%. The UAAL is being amortized as a level percentage of payroll on a closed basis. The remaining amortization period at June 30, 2015 was 28 years.

9. OTHER INCOME/CAPITAL CONTRIBUTIONS

Other income and capital contributions are comprised of the following for the years ending June 30:

| | 2015 | 2014 |
|--------------------------------------|-----------------|-----------------|
| Other income: | | |
| Rents and royalties | \$ 1,619,503 | \$ 1,754,808 |
| Net gain (loss) on sale of assets | (446,528) | (170,023) |
| Total other income | \$ 1,172,975 | \$ 1,584,785 |
| Capital contributions: | | |
| Fire flow parcel fee | \$ 4,511,604 | \$ 4,524,178 |
| Contributions in aid of construction | 1,236,579 | 1,339,395 |
| Total capital contributions | \$ 5,748,183 | \$ 5,863,573 |

Marin Municipal Water District

Notes to Basic Financial Statements, Continued For the years ended June 30, 2015 and 2014

10. COMMITMENTS AND CONTINGENCIES

Capital Budget

The District's fiscal 2015 capital budget is approximately \$23.5 million of which approximately \$1,880,000 is anticipated to be reimbursed to the District by contractors, users and grants.

Commitments

As of June 30, 2015, the District has \$3,944,475 of outstanding construction contracts and purchase orders. This is the amount that the District will be obligated to pay if all contractors and vendors perform per their contract or commitments. The District could substantially reduce the amount of this commitment by notifying contractors to suspend further work and paying for work completed to that point.

Legal Matters

The District is a defendant in a number of lawsuits and claims pending at June 30, 2015. Based on correspondence with the District's legal counsel, it is the opinion of District management that unfavorable outcomes are unlikely and that the settlement of such pending cases would not have a material adverse effect on the District's financial position. Accordingly, no provision for any liability that may result from adjudication has been made in the accompanying financial statements.

Grants

The District participates in several federal and state grant programs. These programs are subject to examination by the grantors and the amount, if any, of expenses which may be disallowed by the granting agency cannot be determined at this time. The District expects such amounts, if any, to be immaterial.

Joint Power Agreement

The District participates in a joint powers agreement through the Marin Emergency Radio Authority ("MERA") under an operating agreement dated February 1, 1999. MERA was created July 1, 1997 by an agreement between certain public agencies in Marin County to provide a public safety radio system, which is owned by MERA, to its members. The members have agreed to assign a portion of their revenues to make annual payments to MERA on a pro rata basis to cover the costs of debt financing and operating the system. The District's annual payments related to the debt financing and to fund operations are recorded as an expense.

The future payments required for the fiscal years ending after June 30, 2015 are as follows:

| Total | \$ 122,031 |
|-------------|---------------|
| 2020 - 2024 | 40,670 |
| 2019 | 20,348 |
| 2018 | 20,337 |
| 2017 | 20,337 |
| 2016 | 20,339 |

10. COMMITMENTS AND CONTINGENCIES, Continued

Joint Power Agreement, Continued

Summarized audited financial information for the Marin Emergency Radio Authority as of June 30, 2014 is shown below.

| Total assets & deferred outflows of resources | \$ 17,132,405 |
|---|------------------|
| Total liabilities | 16,314,651 |
| Total net position | 817,754 |
| Total operating revenues | 1,651,432 |
| Total operating expenses | 5,237,503 |
| Total non-operating revenues & expenses | 1,841,657 |
| Decrease in net position | \$ 1,744,414 |

49

11. RISK MANAGEMENT

The District is exposed to various risks of loss related to workers' compensation and general liability. It is the policy of the District not to purchase commercial insurance for risk of losses to which it is exposed for general and auto liability. Instead, District management believes it is more economical to manage this risk internally and set aside assets for claim settlements. However, the District carries excess liability insurance for losses in excess of \$250,000, not to exceed \$10,000,000 on a per occurrence basis. Settled claims have never exceeded the District's policy limits in any fiscal year.

The District is self-insured for workers' compensation, and has purchased an umbrella policy to cover catastrophic losses. The policy has a self-insured retention of \$750,000 per occurrence with a maximum limit of indemnity per occurrence of \$25,000,000.

Claim liabilities are recorded when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claim liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claim liabilities does not necessarily result in an exact amount. Claim liabilities are reevaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. These liabilities are the District's best estimate based on available information. Changes in the reported liabilities for the years ended June 30, 2015 and 2014 resulted from the following:

| | | Workers | |
|---|----|------------|----|
| | Co | mpensation | |
| Balance at the beginning of year | \$ | 2,987,000 | \$ |
| Current year claims and changes in estimate | | 458,039 | |
| Claims payments | | (296,981) | |
| Balance at the end of year | \$ | 3,148,058 | \$ |
| Due within one year | \$ | 479,613 | \$ |

| | | | 2014 | | | 2015 | | | | | | | |
|----|--------------|----|-------------|----|-----------|------|--------------|----|-------------|----|-----------|--|--|
| | Workers | (| General | | | | Workers | (| General | | | | |
| Co | Compensation | | Liabilities | | Total | | Compensation | | Liabilities | | Total | | |
| \$ | 2,987,000 | \$ | 807,895 | \$ | 3,794,895 | \$ | 3,148,058 | \$ | 548,655 | \$ | 3,696,713 | | |
| | 458,039 | | 290,916 | | 748,955 | | 556,177 | | 198,082 | | 754,259 | | |
| | (296,981) | | (550,156) | | (847,137) | | (415,235) | | (528,198) | | (943,433) | | |
| \$ | 3,148,058 | \$ | 548,655 | \$ | 3,696,713 | \$ | 3,289,000 | \$ | 218,539 | \$ | 3,507,539 | | |
| \$ | 479,613 | \$ | 474,573 | \$ | 954,186 | \$ | 484,104 | \$ | 341,381 | \$ | 825,485 | | |

12. COMPENSATED ABSENCES

The District records a liability to recognize the financial effect of unused vacation and other compensated absences. Changes in the reported liabilities for the years ended June 30, 2015 and 2014 resulted from the following:

| | | Balance | | 20 | 14 | | | Balance | | 20 | 15 | | Balance | | Due Within | | |
|----------------------|----|-------------|----|-----------|----|-------------|----|---------------|----|-----------|----|-------------|---------|---------------|------------|-----------|--|
| | Ju | ne 30, 2013 | P | Additions | | Reductions | | June 30, 2014 | | Additions | | Reductions | | June 30, 2015 | | One Year | |
| | | | | | | | | | | | | | | | | | |
| Compensated Absences | \$ | 4,697,426 | \$ | 3,274,197 | \$ | (2,661,160) | \$ | 5,310,462 | \$ | 3,311,318 | \$ | (3,229,880) | \$ | 5,391,899 | \$ | 3,292,028 | |
| Total | \$ | 4,697,426 | \$ | 3,274,197 | \$ | (2,661,160) | \$ | 5,310,462 | \$ | 3,311,318 | \$ | (3,229,880) | \$ | 5,391,899 | \$ | 3,292,028 | |

13. PRIOR PERIOD ADJUSTMENT

The District recorded prior period adjustments to record the beginning balance of the net pension liability, and to record employer contributions made for pension in fiscal year 2014 as a deferred outflow of resources.

| | Net Position, as | | | | | | | | | |
|--------------------------|--|------|---------------|-------------|--------------|----|--------------|--|--|--|
| | Previously | Defe | rred Employer | | Net Pension | | Net Position | | | |

Notes: In January 1996, Fire Flow Master Plan was developed and identified a wide range of capital projects needed to improve the water system's fire-fighting capabilities. This program is to assess Municipal Water District's water system, both in flow capacity and seismic stability, and to replace inadequate pipelines with larger pipelines that can carry greater volumes of water and to construct seismic improvements. The Fire Flow Parcel Fee Program is funded by a \$75 per parcel fee charged and collected by the Marin County Tax Collector. The District also contributes to the program in accordance with the requirements of the Fire Flow Mater Plan.
