

# Hey Neighbor!

---

**Marin is in a severe drought.**

We need to pull together, and save as much water as we can.

Right now, we should not be washing our cars at home, watering between 9 a.m. and 7 p.m., and we should only be watering on our designated watering day. In this neighborhood, our day is \_\_\_\_\_ .  
(Watering day)

You can read about all of the new restrictions at [MarinWater.org/WaterRules](https://www.marinwater.org/WaterRules). You can also find information about the drought and water-saving tips at [MarinWater.org/Conserve](https://www.marinwater.org/Conserve). We're all in this together as a community, and every drop saved matters.

Sincerely,

*Your Neighbor*
